

Get what you need at point-of-quote with TransUnion Prefill Vehicle

Now it's easier than ever to decrease abandoned quotes, which ultimately impacts your loss ratio. Consumers often lack the information you need at point-of-quote. This results in incomplete applications that require additional follow-up or manual data entry, ultimately leading to higher abandon rates and errors. With Prefill Vehicle, you'll be able to fill in the gaps and make sure you have everything you need to provide an accurate quote.

Prefill Vehicle gives you vehicle information right at the point-of-quote

Simply enter minimal consumer information, such as a name and address, and TransUnion will return the related vehicle information—helping you provide more accurate quotes, improve hit rates and reduce costs.

Prefill Vehicle returns the following:

- Vehicle ID Number (VIN)
- Lien holder
- Model year
- Registered state
- Make
- License plate type
- Branded title

You also may provide a nine- or four-digit SSN, date of birth, vehicle make or model, previous addresses and/or co-policyholder for improved results.

Hit rates and data quality you can be confident in

Prefill Vehicle was built using TransUnion's high-performing systems and experience. Our data enrichment with previous addresses and prior names garner better hit rates than other solutions—helping you reduce costs. Plus, delivery is available on your existing connectivity to TransUnion.

Save time during the application process

In addition to helping decrease abandon rates and reduce errors from manual data entry, Prefill Vehicle has the following industry-reported benefits:

Channel benefits

- Speeds up overall application time
- Decreases time spent addressing data entry issues
- Decreases quote abandonment
- Increases website traffic

Bottom line benefits

- Increases policies sold
- Enables more accurate quotes
- Provides for more complete vehicle data on your book
- Identifies additional vehicles in the household
- Decreases premium leakage

Choose from two solution options

Household

Receive information for all vehicles listed in a household

VIN

If you already know the year and make of the vehicle you're going to insure, TransUnion provides information for that select vehicle.

For a more comprehensive point-of-quote solution, combine Prefill Vehicle with TransUnion Vehicle History Score.
