

# Income and Employment Verification

Powered by  truework

## OVERVIEW

Truework and TransUnion bring together a leading VOI/E services provider with a trusted custodian of data. Truework verification reports, in addition to TransUnion's existing product offerings, give lenders a more robust view into borrowers, enabling better insights for more informed decisions.

## THE TRUEWORK PLATFORM

Truework is the only VOI/E provider to have built an automated solution that connects multiple verification methods into one platform.

- ✔ **Instant:** 48M+ active employee records returned in seconds
- ✔ **Credentials:** Allow applicants to share consumer-permissioned payroll data directly in your application
- ✔ **Documents:** Automate income document parsing and fraud reviews
- ✔ **Smart Outreach:** Save time on manual verifications with intelligent outreach

## WHY TRUEWORK

- ➔ **Multiple verification methods:** Verify more applicants (regardless of income type) with access to multiple data sources
- ➔ **Intelligent orchestration:** Each verification is routed to the most efficient method to maximize speed, coverage and cost savings
- ➔ **Standard data output:** Reduce time cleaning and normalizing data outputs with a standard format – regardless of verification method used
- ➔ **Available everywhere:** Truework can be accessed any way customers need – via API, web portal or LOS
